

MODULAR PANELS

PRIVACY SCREENS

Modular Panels are engineered to be light weight, durable and easy to install. These privacy screens come in a wide range of heights, widths and core options making it easy to create a custom configuration to fit the size and look of your current space. They are great for constructing cubicles, workstations or study carrels for libraries and call centers.

Add support feet or mobile feet for freestanding partitions or hinge several partitions together to create workstations or room dividers. Simple and easy to install - The same connector; our Universal Hinge Kit, allows you to create a 2, 3 or 4-way connection and freely adjust the angle between connecting partitions.

- The frame is constructed using aluminum extrusion
- All metal parts are powder coated for an aesthetic and durable finish
- Fabric cores are constructed using a solid, sound absorbing material to reduce noise levels
- Made in the USA
- Our Modular Panels are available in custom sizes, colors and core materials
