

TERRACE™ PANEL

FRAMED DESK DIVIDERS

Privacy with a Purpose

One of our most customizable dividers, the Terrace™ Panel is the ultimate solution to all your desk needs. It is fully framed and can be clamped on, surface-mounted or left freestanding on your desk. It comes in 2 frame colors with your preference of frosted acrylic, whiteboard or acoustic fabric cores. Fabric panels also provide sound absorption for a quieter workspace. Our clamp options accommodate all tables and mounting methods, from permanent to easily removable.

- All metal parts are anodized or powder coated for an aesthetic and durable finish
- Clamp options fit tables from 5/8" to 2" thick
- The frames are constructed using aluminum extrusion
- Whiteboard and Fabric cores are constructed using a solid, sound absorbing Acoustic Panel material to reduce noise levels
- Add an Accessory Rail to organize and get the most out of your work space
